	Page
Preface to Index	2-3
Index	
Part I Organization of the set, by Region and Colony within Region. ° Africa ° Americas ° Asia & Pacific Basin ° Europe, Middle East & Miscellaneous Reports	4-6
Part II Alphabetical Place Name Index, with earlier forms of entry and cross references.	7-11
Part III Chronological Index of Reports 1 through 1,936.	12-84

Preface to Index

The purpose of this Index is to help the user gain ready access to the 1,936 reports contained in Annual Reports on the Colonies. This series was originally published in chronological order. Thus Report Numbers 1 through 35 cover the years 1889 and 1890, Report Numbers 35 through 60 cover 1890 and 1891, etc. During each year, however, reports for the various colonies were issued in a non-alphabetical sequence, and the sequence in which reports were published one year was not duplicated in any successive year. No index to the set was provided by the original publisher, and Andronicus Publishing Company has therefore added a three-part index to this edition.

Most scholars today are interested in all reports pertaining to a specific area of the world and not all reports published during a given year. Andronicus has therefore rearranged the reports in this microfiche edition by colony (two other microfilm editions are also available: one is arranged by colony, the other by report number). The colonies have, in turn, been grouped into four regions of the world: (1) Africa; (2) The Americas; (3) Asia and the Pacific Basin; and (4) Europe and the Middle East.

In arranging the reports by colony, the editor separated individual colonies as much as possible. In a few cases, however, reports for certain colonies were sometimes published in combination with reports of another colony. For example, reports for Grenada, St. Lucia

and St. Vincent were published separately from 1890-1893 and 1896-1938, but were combined in 1894 and 1895 as the Windward Islands. In this instance and two others (The Unfederated Malay States; and Turks and Caicos Islands, Jamaica and Cayman Islands) the reports are interfiled by report number. Eye-readable headers, however, list the contents of each microfiche.

The first part of the Index, Part I, shows the internal organization and scope of the four regions in this colonial edition of Annual Reports on the Colonies. Colonies contained within each region and microfiche numbers assigned to each colony are shown. The period during which reports for each colony were included in this series is also given.

During the period 1889-1938/39 a number of changes occurred in the boundaries or names of some of the colonies. Part II therefore lists in alphabetical order, all colonies in this set, including variant forms of entry used on the title pages of the reports. Cross references indicating the microfiche on which such variant place names will be found are provided.

Part II lists all 1,936 reports in the set chronologically by report number. The title of each report, period covered and microfiche number are also given. Since reports for every colony included in the set were not published every year, many questions regarding the contents of this series may be answered by checking this comprehensive listing. Reports cited elsewhere by number only, may also be located here.

INDEX

PART I

ORGANIZATION OF THE SET

AFRICA	PERIOD COVERED	FICHE NOS.
Ashanti	1905-1925/26	AS 1-13
Basutoland	1890/91-1938	BA 1-34
